Our team is working on creating a plan and a set of strategies to revitalize the northwest section of Hobart. To start this planning process, we thought it would be wise to interview local leaders who have deep knowledge and wisdom about this target area. You have been identified as a local leader. Our team is asking the same question of all of the leaders being interviewed:

What are the STRENGTHS, WEAKNESSES, OPPORTUNITIES, and THREATS that you see here, now? Strengths and Weaknesses are issues controlled locally. Opportunities and Threats are outside of local control but influence the future.

STRENGTHS	WEAKNESSES
OPPORTUNITIES	THREATS

Do you reside within the Neighborhood Spotlight footprint? YES NO

Who do you consider a “leader” in the community and recommend that we interview?
