NIRPC has partnered with the American Bicycle Association and the League of American Bicyclists to produce a map of bicycle routes in Northwest Indiana. The map is available for downloading and printing at www.nirpc.org/bikemaps and includes information on bike trails, bike lanes, marked shared lanes, and bike routes. The NIRPC region is one of only a few in the nation to have a detailed map of bike routes, and the map is a valuable resource for cyclists and non-cyclists alike.

The map is designed to be user-friendly and easy to read, with clear markings and legends to help cyclists navigate the region. It includes a breakdown of different types of bike routes, such as bike trails, bike lanes, and marked shared lanes, and provides information on the length of each route, the surface type, and any special features or amenities along the way.

This map is a testament to the region’s commitment to cycling and active transportation, and it is a valuable resource for anyone interested in exploring the many biking opportunities available in Northwest Indiana. Whether you’re a seasoned cyclist or a beginner, the NIRPC bike map is a must-have for anyone planning a ride in the area.

NIRPC is the Metropolitan Planning Organization and Regional Council of Governments for Northwest Indiana, and its mission is to provide a collaborative management process for Lake, Porter, and LaPorte Counties and to institute and maintain a comprehensive planning and programming process for transportation, economic development, and environmental policy.
